

MIG WELDING MACHINE

TRACK-MIG 355i SYN

SMART & MIGHTY MIG welder with functions of gas & gasless MIG/MAG and MMA, perfect fit for diverse welding application, and well recognized by its long standing reliability and durability.

UNIQUE MODEL NOT ONLY FOR PROFESSIONAL WELDER BUT ALSO THE IMMATURE PEOPLE.

FEATURES

- #. Latest mature MCU control technology, excellent starting performance (stable and dynamic)
- #. full bridge IGBT inverter design, offering more efficiency, better control
- #. Friendly interface, easy to understand and operate
- #. Synergic application mode enable you achieve the job in comfortable way, also trouble-free from parameter matching issue
- #. Manual application mode can let you enjoy more happy from welding, more specific for welding job, especially for professional welder
- #. Dual voltage design further enlarge its application site, good fit for long-time operation of 1.0mm gas wire and 1.0mm gasless wire.
- #. Perfect fit for General fabrication, Construction site, Light industry, Maintenance and repair.

SPECIFICATION

| | |
|---------------------------------|--------------------------|
| MODEL NAME | TRACK-MIG 355i SYN |
| INPUT VOLTAGE | 1P220V&3P415V $\pm 15\%$ |
| FREQUENCY | 50/60Hz |
| RATED INPUT CURRENT | |
| OUTPUT CURRENT | 30-355A |
| WIRE FEEDING SPEED(m/min) | 3-24 |
| Feeding wire size | 0.8/1.0mm |
| DUTY CYCLE | 60% |
| EFFICIENCY | $\geq 85\%$ |
| Recommended workpiece thickness | $\geq 0.8\text{mm}$ |
| HOUSING PROTECTION GRADE | IP21 |
| DIMENSION L x W x H | 546*234*417mm |
| WEIGHT APPROX. | 10.5kg |
